Stan,

SJV Rule 4692 and 4905 have been updated in the rules log database (RLDB).

I use CARB's database to double check our info, and the District's list of rules - in case we miss something. SPECS is the 3rd database EPA R9 has migrated to for submittals - I'm not proficient with it yet. I was specifically looking for SJ 4692 and not working on any RACT SIP when this popped up.

Hi Stan,

Steph and I are the owners/users of that database – so this is likely just something that we missed. We'll make sure to go in and double check all the rules that were in the 3rd quarter package last year and update them as needed.

That's interesting to hear that you use our RLDB to check to see when something is submitted. Since all submittals are going through SPeCS now, do you also double check that system to verify the dates?

Thanks,

Ariel Fideldy

Ariel, Stephanie,

Not sure who to pass this along to.

I use CARB's Rules Log Database to check if/when a rule was submitted to EPA.

The database doesn't show the 2018 3rd qtr submittals for

SJ 4692 (Commercial Cooking) and

4905 (Natural gas fired residential furnaces)

I spot checked Antelope 1110.2 (10/2018 submittal) and Sac Metro 414 (1/31/2019 submittal) and they are listed in the rules log database so maybe its just the 3rd qtr submittal that is missing.

I didn't check the database for any other missing submittals.

Thanks for any help you can provide to pass this to the right group.

Stan
